Ruby Tax Claim Is $45,637.43

DALLAS, Tex., April 6 (AP)—The Federal Government has filed a claim of $45,637.43 for back taxes against Jack Ruby, who killed Lee Harvey Oswald, identified by The Warren Commisison as the slayer of President Kennedy.

Ruby died last January of cancer.

The claim, Internal Revenue Service officials said today, is for taxes dating back to 1965 over five separate tax periods.

There has been no official indication of the size of Ruby's estate.
